Abstract is to be typed here. It should not contain equations. No table numbers, figure numbers or references should be given. Keywords below should be chosen as they best describe the contents of the paper. Each keyword, except proper nouns and acronyms, should be typed in lower-case letters and followed by a comma.

KEYWORDS: UHECR 2014, keyword1, keyword2, ...

1. Introduction

You can use this file as a template to prepare your contribution for the UHECR 2014 symposium held in Springdale, Utah for Oct.12th - 15th, 2014 [1–3].

2. Another Section

2.1 Subsection

2.1.1 Subsubsection

Fig. 1. This is an Example Figure. EPS is the only format that can be embedded.

The `minipage` environment can be used to place figures horizontally.

$$E = mc^2 \tag{1}$$

Many useful commands for equations are available because `jpsj-suppl.cls` automatically loads the `amsmath` package. Please refer to reference books on \LaTeX for details on the `amsmath` package.
